

Cammie Pearson
Board Candidate

My name is Cammie Pearson, and I am the Recreation Manager for the Lavaca-Navidad River Authority (LNRA) who owns and operates the Brackenridge Recreation Complex which consists of the Main Event Center (MEC), Brackenridge and Texana Park & Campground in Edna, Texas. I have a BSBA in Accounting from the University of Houston-Victoria. I've worked for LNRA for the past 15 years and manage the Recreation Division. I oversee a staff of 30 full time employees and operating budget of 2.6 M. Our facility currently hosts a wide variety of events including several youth rodeo events, barrel races, team ropings, and livestock shows.

My experience with the League started when I hired Bob Kiser as a consultant. During his visit, he prompted me to look into attending the Symposium and Footing Academy in Ardmore, OK in January of 2009 just prior to our opening the Main Event Center. I learned so much at that Symposium and also made contacts that I could reach out to for answers to the many questions I had as we were opening the new facility. I have attended as many Symposiums as possible over the past 12 years and value the education and networking I have received at each of them. Having a group like the League Membership to go to has been an invaluable asset. There aren't many industries where its members (who sometimes are our own competition) are so willing to share their knowledge and information. I always say that our facility could not have been as successful without my association with the League and its membership. I applied for and earned my CMEC certification in 2016. I have served on the League's Board of Directors since 2016 and I have served as the Education Chairman for the past several years. I am eager to continue expanding my knowledge of the industry and would like to continue my service to the Board and the League. I would once again appreciate your consideration.
